Przed montażem przeczytać instrukcję. Przestrzegać kolejności montażu podanego w instrukcji! Klej i farby nie wchodzi w skład zestawu.

Uwaga! Zdecydowanie sugerujemy użycie bardzo rzadkiego kleju - Tamiya Extra Thin Cement jest najlepszym wyborem. Montaż gąsienicy należy przeprowadzić dość szybko bo sklejona gąsienica zachowuje miękkość przez kilkanaście minut i można ją wtedy wyginać i dopasowywać.

Please read instruction before assembly. Obey sequence of assembly like in instruction. Glue and paints not included.

Attention! We strongly suggest using of very thin glue - Tamiya Extra Thin Cement will be the best choice. Assembly of track please make in short period of time, because assembled track is still soft and can be fitted and bended.
